25X1 15. [] LIAISON Received a call from Bill Miller, Staff Director, Senate Select Committee on Intelligence, who said he had reviewed the Agency's communications with Congress on the issue of compartmented clearances and is supportive of our position. We discussed the problems with S. Res. 4 personal staffers. Miller said he personally would meet with [] OLC, to discuss this issue further.

25X1 Later in the day, I met with Miller and asked him about the Committee's action on the [] report. Miller said he expected this issue to be resolved by the end of the week by the transmission to the Agency of a copy of the report, which takes into consideration the Agency's views. 25X1

25X1 16. [] LIAISON Met with Ed Levine, Senate Select Committee on Intelligence staff, and answered his questions regarding medication and glasses used by [] I offered to show him a 25 May 1964 document which he had requested but he asked me to do so tomorrow and I agreed. Levine asked that we bring a sample Memorandum of Notification to the covert action briefing scheduled for later in the day and I agreed to raise this. I discussed with Levine the Agency's comments to the Committee on the report on intelligence regarding Cuban involvement in the Shaba invasion. Levine indicated the Committee had accepted some of our views but not all, and that one they had not accepted was our position that the intelligence had not been "over-interpreted." 25X1

[] LIAISON Called Charles Mosher, Executive Director, House Committee on Science and Technology, in an attempt to run down a story relayed to us by NSA to the effect that Representative Olin Teague (D., Texas), Chairman of the Committee, had said CIA claimed to have the capability to shoot down the Skylab. I told Mosher that the Agency did not claim to have this capability and that we wanted to find out if, in fact, Representative Teague had made such a statement. Mosher called the Congressman who denied having ever made such a statement and Mosher then reported this to me.
